The Story:

Not much to write home about. Another dissapointing one from AW. Pics looked good from the site, and atleast I didn't encounter someone completely different. This wg has moved around different locations, last one being Newbury, and her previous name on the site was Angii. No doubt she will be moving to another location and/or changing her profile name.

To summarise the visit then. Called to book and check if she did owo, and she confirmed it was included. Got down to the nitty gritty and it wasn't on offer. Plus, sex was only allowed the one time. Did get a massage at the end, which was the best bit of the experience. That says it all I'm afraid.
