The Premises:

Well-appointed flat; entrance into a drawing room (which I only walked through) and shown to a very nice bedroom with discrete lighting. On a busy public street, so being busy, was discrete.

The Lady:

Tall (until she took off her shoes), platinum blonde (short hair) and exquisite slim body: two very prominent tatoos on her side (I liked them a lot, but she said some punters don't), which don't show in her pictures, so must be new. Otherwise, her pictures are very accurate.

The Story:

She said it was her first day of work in three years and previously had worked in Milton Keynes. How lucky I was to have seen on the website that she was in.

She FK at the start, then let me finish undressing her as she did the same to me. Immediately she asked me to lie back on the bed where she make me hard with OWO. Rather quickly, she reached for the condom which she put on me and started to ride me when I said I preferred to take her from behind -- which she said was her favourite position too. She made me feel that she was enjoying it as much as I did, as I finished after a bit. As we still had some time left, she asked if I wanted a massage. All in all, a very pleasurable experience.
